PROFESSIONAL SUMMARY

Industrial Systems Engineering student targeting a **Data Analytics in Manufacturing** role. Proven track record optimizing production processes through **quantitative modeling** (Arena, Monte Carlo), **process automation**, and cross-functional execution. Delivered measurable impact across **capacity forecasting**, **bottleneck elimination**, **QC framework implementation**, and **workflow efficiency improvements**.

EDUCATION & CERTIFICATIONS

Ho Chi Minh City University of Technology (HCMUT)

Bachelor of Engineering – Industrial Systems Engineering

Expected 2027

GPA: **3.3/4.0** (2025–2026)

Certifications: MOS Associate (Office 365 & 2019), **TOEIC 935/990**

TECHNICAL SKILLS

Data & Process Simulation: Power BI, SQL, Arena (Rockwell Automation), Crystal Ball (Oracle), Monte Carlo.

Quality & Manufacturing: SPC, DMAIC, FMEA, Line Balancing, SOP Development, Minitab, AutoCAD 2D.

Data Warehousing & AI: Data Warehouse Design, Decision Support Systems, Data Mining, Machine Learning, Web AI / AI Apps, Ollama (LLama, Qwen).

Software & Development: MS Dynamics 365 (ERP), MS Project (Gantt, Critical Path), GitHub, Cursor, Claude Code (Vibe Coding), Web Dev (HTML/JS).

LEADERSHIP & PROJECTS

Bach Khoa Ambassador Club

Nov 2025 – Present

Project Leader (BKFC – Nguyễn Hữu Cánh High School)

- Redesigned a 6-month university orientation strategy using **content performance analytics**, achieving **6,347 total views** and acquiring **89.3% of reach from non-followers** to maximize new-audience acquisition.
- Pivoted campaign to **short-form video** after diagnosing engagement data, driving **73.5% of total views** while systematically reducing production time per unit of reach.

Mechanical Engineering Faculty Youth Union, HCMUT

Jun 2025 – Nov 2025

Event MC & Coordinator (Traditional Camp) & STEM Team Member

- Developed MC runbooks and logistics frameworks for a **90-participant traditional camp**, executing award ceremonies with **zero scheduling disruptions**.
- Structured STEM project milestones with defined owners and checkpoints, delivering **100% on-time completion** and finishing the Green Summer Volunteer Campaign **ahead of schedule**.

Play & Learn English Club

Sep 2024 – Present

HR Member

- Redesigned workflow bottlenecks for a 15-member team using standardized tracking templates, delivering a **150% improvement in administrative efficiency** and completely **eliminating missed project deadlines**.

WORK EXPERIENCE

Wahl Clipper Vietnam

Mar 2026 – Present

New Product Introduction (NPI) Intern

Cần Giuộc, Long An

- Modeled trimmer assembly line capacity using **Arena** and **Crystal Ball** to run **Monte Carlo simulations (5,000 trials)** to forecast daily output and eliminate bottleneck cycle times, directly optimizing production flow.
- Designed and deployed a **warehouse management system (WMS)** for the NPI warehouse with **real-time inventory tracking**, warehouse layout visualization, and **XLSX inbound/outbound batch processing** powered by a Google Apps Script webhook.
- Architected a **data warehouse** and **decision support dashboard** for NPI material staging, enabling **SKU location tracking** and optimizing floor-level storage allocations using data mining and ML-driven insights.
